Bridgeton/Westlake Landfill

- [REDACTED] Congressman Clay briefing 4/15 – MDNR and Missouri AG took the lead on issues related to Bridgeton. That made for a clear distinction on which agency had the lead for the two sites. The congressman’s DC office invited Kat Logan-Smith and Chris Smith from Missouri coalition to participate on call. The congressman’s St. Louis office had a few differences with the Coalition on description of community and local government reaction.
- [REDACTED] St. Louis County reissued a performance test extension letter to Bridgeton Landfill that included a reference to MDNR and state authority clearing up an issue we had questioned.
- [REDACTED] MDNR is evaluating whether leachate pre-treatment should be considered hazardous waste treatment,
- [REDACTED] ENSV and APDB have obtained more information about the basis for air screening levels being used by MDHSS.
- [REDACTED] MDHSS contacted Chuck Hooper to consult on radiation monitoring methods. He briefed Ron and Cecilia on this at the Friday coordination meeting
- [REDACTED] 4/29 meeting with MDNR will focus on air monitoring

- [REDACTED] OPA will be scheduling an update briefing for congressional in the next two weeks
- [REDACTED] ASPECT report still under review
- [REDACTED] The Missouri Atty General has scheduled trial dates of May 14 and 15 on complaint that has been filed
